

ThermoCare

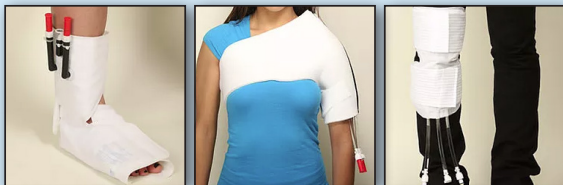

Rehabilitation Therapy

What you can expect

To help you recover from your surgery or injury, your physician has ordered you the Thermo Plus System. It provides cold therapy, compression therapy, and DVT prophylaxis, when prescribed.

Step 1. ThermoCare Plus will contact your insurance carrier for authorization. Once authorization is granted, a ThermoCare Plus representative will contact you to schedule an appointment for delivery and set-up of the unit in your home or office.

Step 2. At time of delivery, the ThermoCare Plus representative will instruct you on the use of the unit and answer any questions you may have.

Step 3. When your prescription period is nearing its end, your ThermoCare Plus representative will contact you to schedule the unit pick up. Once your prescription period has ended, your insurance carrier will be billed.

If, after the completion of your initial prescription, you feel you need to continue your therapy with the Thermo Plus System, contact your physician's office to request an extension. If your physician approves your extension request, a new prescription will be issued and your ThermoCare Plus representative will notify you.

All questions pertaining to billing should be directed to ThermoCare Plus, LLC at 516-873-1010.
